

CS-405-Mini Project**Mini project Guidelines**

1. Project will be of 200 marks.
2. One project per student
3. Project title must be unique.
4. Duration of project completion will be full semester.
5. Project should be completed under the guidance of allocated guide by HOD.
6. All project work should be completed in the college laboratory under the supervision of guide.
7. For project report the specifications are – Font size 12, Name – Times New Roman, Spacing 1.5 with header and footer.
8. Project report should be with spiral binding having maximum 90-100 pages only.
9. Project report should be submitted with two hard copies.
10. Evaluation of project will be done as per university rules.

MSc II Sem IV Zoo 404: Project

(Credit 4)

Project on suitable topic should be given to each student in the beginning of 3rd Semester and through the year work should supervised and finally Project Report with following points should be typed, bind (at least 30 pages) and submitted to department before final examination (4th Semester).

Title of the Project: Define a short, significant title which reflects clearly the contents of the report.

Abstract: Succint abstract of less than one page.

Table of content: The table of content lists all chapters (headings/subheadings) including page number.

Introduction: Explain why this work is important giving a general introduction to the subject, list the basic knowledge needed and outline the purpose of the report.

Background and results to date: List relevant work by others, or preliminary results you have achieved with a detailed and accurate explanation and interpretation. Include relevant photographs, figures or tables to illustrate the text. This section should frame the research questions that your subsequent research will address.

Aims and Objectives : List the main research question(s) you want to answer. Explain whether your research will provide a definitive answer or simply contribute towards an answer.

Methodology: Explain the methods and techniques which will be used for your project depending on the subject: field work, laboratory work, modeling technique, interdisciplinary collaboration, data type, data acquisition, infrastructure, software, etc.

Discussion / Conclusion: Explain what is striking/noteworthy about the results. Summarize the state of knowledge and understanding after the completion of your work. Discuss the results and interpretation in light of the validity and accuracy of the data, methods and theories as well as any connections to other people's work. Explain where your research methodology could fail and what a negative result implies for your research question.

Acknowledgement: Thank the people who have helped to successfully complete your project, like project partners, tutors, etc.

Reference & Literature (Bibliography): List papers and publication you have already cited in your proposal or which you have collected for further reading. The style of each reference follows that of international scientific journals.

Appendix: Add pictures, tables or other elements which are relevant, but that might distract from the main flow of the proposal
