9) Briefly mention the benefit generated by conducting this Activity with respect to
a) the institution b) the faculty, c) students, d) industry/ society:

Our aim to organize this conference is to share the information about the recent biological areas and to motivate young researchers towards the basic and applied research in animal diversity. This conference became fruitful in all aspects. Benefits generated by conducting this activity are as follows:

a) **Benefits to the institutions**

It has enriched the academic environment of the college. This conference became the milestone in the college regarding the success and participants attendance. It may be beneficial to the institute to secure the future research activities among the researchers.

b) **Benefits to the faculty**

This conference provides opportunities for the delegates and faculties of different sectors to exchange new ideas and application experiences face to face, to establish research relations and to find global partners for future collaboration.

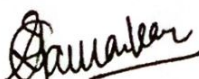

The local faculty has taken good experience when they work together with proper planning in various committees associated with this conference. They sincerely involve and even though participated in oral and poster presentation of the conference.

c) **Benefits to the Researchers**

Researchers from various places of our nation also actively participated in the oral presentation event of the conference. They present research problems through their research activities enthusiastically and experts along with delegates appreciate and encouraged their work.

d) **Benefits to the industry/society**

This conference had promoted the scientific community to contribute the society with research and new innovations in animal diversity, their conservation also.

(Dr. A. B. Sawarkar)
